

COMBUSTION AND EXPLOSION [GORENIE I VZRYV (MOSKVA)]

Vol. 18 No. 3 Year 2025

Editor-in-Chief S. M. Frolov

In this issue:

Measurement and modeling of propylene ignition delays behind reflected shock waves V. N. Smirnov, G. A. Shubin, P. A. Vlasov, A. A. Zakharov, and V. S. Arutyunov	3
The lowest limits of NO concentrations and the conditions for their achievement during combustion of lean and rich H ₂ O/O ₂ /N ₂ mixtures of methane induced by O ₃ and H ₂ O ₂ G. A. Poskrebyshv and A. A. Poskrebyshv	10
Ignition of methane in electric field V. S. Arutyunov, K. Ya. Troshin, A. A. Zakharov, A. A. Belyaev, A. V. Arutyunov, and I. O. Shamshin	19
Preliminary results of calculations of premixed methane combustion in a burner with pilot flame stabilization R. A. Balabanov and V. V. Vlasenko	29
Numerical simulation of processes in the annular combustor of a gas turbine engine Ya. V. Tropin, A. A. Manuylov, and S. A. Rashkovskiy	40
Multicriteria analysis of liquid fuel characteristics D. V. Antonov and P. A. Strizhak	53
Air-breathing pulse detonation thrust module S. M. Frolov, V. S. Ivanov, V. S. Aksenov, I. O. Shamshin, and P. A. Gusev	60
Thermodynamic properties of triethylaluminium monomer and dimer G. A. Poskrebyshv and S. M. Frolov	71
Thermal oxidation of composite fuel pellets with cardboard and lignite additives V. V. Dorokhov, K. Yu. Vershinina, O. V. Vysokomornaya, G. S. Nyashina, K. K. Paushkina, and D. K. Shvedov	84
On the mechanism and specific features of initiation of the explosion of a pressed mixture of ammonium perchlorate and sevilene with aluminum additive by a high-voltage discharge A. G. Rebeko and B. S. Ermolaev	95
Nanothermites with controlled combustion characteristics — new features for microtrasters V. G. Kirilenko, A. Yu. Dolgoborodov, and M. A. Brazhnikov	108
On the calculation of TNT equivalent for cylindrical-shape charges of high explosives S. N. Tochilin, V. D. Gavryushova, S. S. Basakina, P. V. Komissarov, and M. A. Silakova	124
1,1'-Azo-bis[3-(nitro-NNO-azoxy)-1H-1,2,4-triazole]: Decomposition kinetics and combustion behaviors L. Ya. Melnikova, V. P. Sinditskii, N. E. Leonov, and M. S. Klenov	133
